

# Belal A. Thabet

Computer Engineer - (In Progress)

☎ +970-59-405-0624 @ thbelal.ace@gmail.com

🌐 <https://github.com/belalth> 📍 Palestine - Gaza

## OBJECTIVE

As a dedicated Computer Engineering student, I am enthusiastic about harnessing my technical acumen and knowledge to excel in an internship role. My aim is to actively contribute to pioneering projects, acquire practical experience, and further cultivate my proficiency and cutting-edge technology.

## RELEVANT COURSEWORK

One of the significant courses that I prioritize during my college education

- Statistics and Probability.
- Data Structures and Algorithms
- Database Management
- Web Development

## PROJECTS

### LearnLog

#### Web Development Field

- Description: Developed an advanced student attendance tracking system to simplify attendance monitoring processes.  
Technologies Used: JavaScript, HTML, CSS, PostgreSQL.
- GitHub Repository: <https://github.com/belalth/LearnLog>

### Library Management System

#### Data Structure and Algorithms Field

- Description: Created an efficient library management system to manage user-admin relations, book procurement, and high-speed book/user searches.
- Technologies Used: Java, JavaFX.
- GitHub Repository: <https://github.com/belalth/Library-System-Server-Client>

### ChatChat - Secure Online Chat Platform

#### Networking Field

- Description: Engineered a high-performance online chat platform with robust security features to facilitate seamless communication
- Technologies Used: Python, SSL Encryption.
- GitHub Repository: <https://github.com/belalth/Chat-Chat>

## SKILLS

Java · Node.js · JavaFx ·

PostgreSQL · Linux · Cryptography ·

Python

## EDUCATION

B.D Computer Engineering

Islamic University of Gaza

10/2020 - Present Palestine - Gaza

## STRENGTHS

### 🔍 Proactive Learner

I possess a proactive approach to learning, constantly seeking out and embracing new technologies and concepts. I thrive on the challenge of exploring unfamiliar territories, making it a seamless part of my professional journey

### 👥 Active Listening

To maintain a good conversation and to receive valuable feedback, I mastered active listening.
